

In Terms of the Occupational Health and Safety Act, 1993, the Pressure Equipment Regulations require that all LPG installations must only be carried out by a competent person, registered by an organisation approved by the Chief Inspector of the Department of Labour.

The South African Qualification & Certification Committee for Gas, ([SAQCCGas](#)) has been officially appointed and mandated by the Department of Labour to register gas practitioners as competent within a specific scope of work.

For a list of registered installers, please visit the SAQCCGas website [here](#).
